15 June 2020

Dear Year 4,

We found this at school this week. It is a Privet Hawk moth and has a wing span of over 100mm. How many cm is this and how many moths would make a metre if you lined them up next to one another?!

Have you found anything similar at home? Do let us know if you have- now is the perfect time of year for these amazing creatures!

Please see below for the home learning for this week. This is exactly the same as the work we are completing in school.

- *Spellings
- *A maths activity
- *A reading, writing and grammar activity
- *A topic activity (See below):

Summer 2 Topic:

Road trip USA

Wk3 :

If you can, try and make traditional US dishes including chicken pot pie, Minnesota hotdish, Nebraska handheld meat pies, Natchitoches meat pie from Louisiana and hot dogs from just about everywhere!

Taste test to see which dishes they like best and evaluate the success of your cooking.

Other dishes could include pumpkin, pecan, apple and blueberry pie with ice cream. Yum!

Joke of the week- 

What does a spider's bride wear? A webbing dress.

Weekly Riddle (answer will be posted next time):

What has a tongue but never walks, no legs but sometimes walks?

(Answer from last week)

What is more useful when it is broken?

Answer: An egg!
